

CDEA

Chemical name: Coconut Diethanolamide

CAS number : 68603-42-9

HS Code: 34021300

Packaging details: Drum

Product Applications:

Coconut Diethanolamide used as viscosity and foam enhancer, foam stabilizer and emulsifier. It can be formulated into liquid detergent, transportation cleaners, dishwashing liquid, hand cleaners and shampoos.

Typical Properties

Characteristic	Specification
Appearance	Transparent Yellow Liquid
pH (1%)	8.5-10.5
Free Catalyst, %	Max 0.3
Free Fatty Acid, %	Max 0.5
Free Amine, %	Max 4
Amide content, %	82-86
